Come Together
Carlotta de Bevilacqua
CARLOTTA DE BEVILACQUA

Architect, designer and above all humanist, Carlotta de Bevilacqua has been a force in contemporary lighting since the 1980’s. A pioneer in LED research and implementation, she created the concept “The Human Light” in which lighting encourages not only the well-being of those who live, work and interact with it, but also the planet. As interested in science of light as the sensory experience, de Bevilacqua seeks to create synergy between products and users through accessible, experimental design.

A life-force at Artemide for nearly 4 decades, in addition to her own studio she oversees Danese Milano creating minimal, yet elegant, products which further complement the built environment. In addition to widespread recognition for her work, in 2011, she received a Red Dot Design Award for the Algoritmo and Copernico.
REVOLUTION

In 1998, Artemide introduced the revolutionary Sui lamp, with 18 portable and rechargeable LEDs. Come Together brings together lightness, optical intelligence, and sophisticated design in a new, 2.0 revolution of portable, rechargeable, LED light.
HUMAN LIGHT

Come Together is lightweight (1lb) and is shaped to fit perfectly in hand to accompany man through space and provide lighting on demand in any environment, indoor or outdoor.
SMART

A perfect light that operates for up to 16 hours without being connected to a main power source using a Li-On rechargeable battery and USB charging port.
EFFICIENT

The lamp delivers three different light sources with a very high-efficiency of 85%. The body is a transparent optical device with a gradient pattern that works as an “empty” pipe to carry and distribute light.
1,2 W
400 lx
16 hours battery life

2,4 W
700 lx
8 hours battery life

3,6 W
1000 lx
4 hours battery life
Come Together

Technical Data

**MATERIALS**
Transparent optical injection molded PMMA external shell, die-cast aluminum internal shell

**EMISSION**
Diffuser

**LIGHT SOURCE**
3W LED (integrated)

**TOTAL POWER**
3.6W

**CCT**
3000K

**CRI**
>80

**DIMMING FEATURE**
Dimmable (on body)

**DELIVERED LUMENS**
360lm

**FINISH**
- Transparent external body, white-painted internal shell
- Transparent external body, polished copper-painted internal shell
- Transparent external body, aluminum-painted internal shell

**CERTIFICATIONS**
IP20

Dimensions:
- Ø3 3/8” (8.5 cm)
- 10 3/16” (26.9 cm)
- 3 15/16” (10 cm)
